## **DETROIT BRANCH RAIDED BY FASCIST PIGS**

The local fascist pig force invaded the office of the Black Panther Party located at 12th Street and Euclid Avenue in Detroit. Over 25 pigs surrounded the block of the 12th Street area as approximately 10 pigs forced their way into the office. The pigs allegedly were in search of a pig walkie talkie type radio, ransacked the office, harassed a sister and two brothers, and took pictures of all the files for future information to aid in the fascist takeover by this racist power structure.

After staying in the office for over an hour supposedly in search of a walkie talkie. (How pigs expect to find a walkie talkie while taking pictures of bits of paper no one will ever know); they stole from the office items belonging to the people. A typewriter and adding machine which was used to aid and co-ordinate the feeding of CHILDREN in the FREE BREAKFAST FOR SCHOOL CHILDREN PROGRAM, was taken by the pigs,

and never returned.

Three Black Panther Party members were arrested and released four hours later after the fascist pigs admitted that there was no radio in the office, which their warrant was issued for, and that the typewriter and adding machine which the pigs stole from the people could not be connected as being stolen by the Panther members arrested. Those arrested were Free Breakfast for Children Coordinator, Anita Hartman, Free Breakfast Assistant, Jon Williams, and the Officer of the Day, Leo Williams (no relation).

The people in the area warned other Panthers not to approach the building as the pigs had a trap set inside. "The spirit of the people is stronger than the man's technology". These people wanted to and did protect those who had been FEEDING their CHILDREN, and aiding them in fighting the fascist oppressor.

**ALL POWER TO THE PEOPLE**
